WHY TAPEX INDUSTRIAL?

Tapex has been a leading product solution provider to the industrial sector for over 60 years.

Tapex Industrial is part of the Tapex Group of companies, a privately-owned Australian company that commenced operations in 1957 and based its success on customer focus, innovation, and superior service.

For over 60 years, Tapex Group has built its culture on three key platforms:

- » Customer first
- » Respect the individual
- » Innovation in everything we do

Our stakeholder relationships are at the centre of everything we do, as is our commitment to a sustainable environment and giving back to our community.

FEATURES

- » High knot strength.
- » Non UV stabilised

Tapex is a major supplier of high-quality polypropylene industrial twine to the waste compacting and recycling industries.

COLOURS

INDUSTRIAL TWINES

BUTCHER'S TWINE

Kinnears polyester twine is well-established and highly regarded in the meat industry. It is used in a wide variety of applications and considered the product of choice for meat, game and poultry tying.

Kinnears also has a range of fine polyester twines used extensively in the small goods market.

HANKS

Hanks are cut lengths of lashing and are generally used in both the meat and warehouse industries. Allowing Tapex to cut your lashing into hanks using our modern and efficient cutting process will save you time and money.

- » Non UV stabilised
- » Made of polypropylene

TYING AND SECURING

A comprehensive range is available in sizes to suit compactors from all manufacturers.

TYING AND SECURING

A comprehensive range is available in sizes to suit compactors from all manufacturers.

MULTI-END COPS

Kinnears Natlash Multi-End Cops are made from high-quality polypropylene twine. A Multi-End Cop is the ideal way in which to obtain 25 to 50 lengths of twine economically.

GENERAL USES INCLUDES:

- » Meat hanging
- » General securing and bunching

TAPEX TWISTIES

The Tapex Twistie is ideal for packaging, horticulture labels, food and general industry.

- » Extra-wide 4mm gives a more secure form of containment.
- » Comes in two forms: reel or standard cut length.

INDUSTRIAL ROPE

STRONG AND DURABLE

PULL THROUGH ROPES & BLOW LINE

This polypropylene rope is designed for maximum strength and minimal kinking for pulling cables through conduit and pipes.

Often used in Fibre Optic Cable installation into main ducts.

- » 6mm PP 3 strand twisted
- » Complies with AS 4142
- » Resistant to rot and mildew
- » Approved by Telstra

PRODUCT CODE	DESCRIPTION	BREAKING STRAIN	MTRS/BALL	QTY/PACK
